UNICEF

Consultant for Partnership Development & Country-Roll Out
Juni 2022 - Januar 2023 (8 Monate)
Nairobi County, Kenya

Supporting the roll-out process of the Yoma project across the globe as well as the partnership development.

The Youth Marketplace (Yoma) is an ecosystem solution that links young people with learning, earning and engaging opportunities. As young people engage in the Yoma platform, their involvement and accomplishments are recorded online using blockchain allowing them to build a verifiable digital CV and finally enhances employability and more informed matching with the labour market.

Yoma was initiated by the GIZ, UNICEF, Botnar Foundation and RLabs in 2020 and is working together with a diverse range of partners from the public and private sector.
