

# ALASTRIA IN A NUTSHELL

Alastria is one of the largest public-permissioned, multi-sector blockchain platforms in the world. It has over 500 members of different sizes and from various sectors, including business (micro-enterprises, SMEs and large companies), academia (universities, business schools, training centres, and technology and science parks) and government.

Alastria is a neutral meeting point for responsible, trusted and regulation-aligned knowledge generation, innovation and blockchain development; a place to boost the digital economy by promoting decentralised technologies and the use of blockchain.

## Our Aims

- Democratise access to blockchain technology.
- Strengthen the public-private blockchain ecosystem.
- Foster new digital economy business models..
- Support the development of blockchain networks promoted by our members.
- Gain new insights into blockchain technology by leveraging real-world use cases.

## International Activity

- Alastria is held as a benchmark in key organisations and forums for the future of distributed ledger technology (DLT). We are member of organisations such as the European Blockchain Partnership, European Blockchain Services Infrastructure, ESSIF, INATBA and LACChain.
- We also actively participate in blockchain-related standardisation bodies such as UNE, CEN/CENELEC, ISO and ITU.

## HOW WE WORK

At Alastria we encourage all our members to actively participate in different working groups. This helps create links between them so that together they can build knowledge, infrastructure, developments and resources for all their benefit.

BECOME A MEMBER

## GOVERNING BODIES

Our governance structure includes a number of decision-making bodies at various levels.

### General Assembly

The General Assembly is the association's highest governing body and is composed of all members.

### Board of Directors

Its purpose is to ensure that all decisions made at the General Assembly are implemented, as well as overseeing and supporting the work of the various committees.

ALASTRIA ACTIVITY REPORTS

MEMBERS

Miguel Ángel Domínguez | ADD4U  
President

M<sup>ra</sup> Concepción de Monteverde | Banco Santander  
Vicepresident

Luis Pastor | Independent  
Vicepresident

Francisco Maroto | BBVA  
Bursar

Nuria AVALOS | Repsol

Jesus Ruiz | IN2

José Luis Núñez | Telefónica

Luis Garvia | Universidad Pontificia Comillas

Carmen Chicharro | Metrovacesa

Juan Cumbreiro | MAPFRE

Manuel Calderón | Inetum

Cristina Martín Lorenzo | Usyncro

Miguel Galero | Izertis

Carlos Kuchkowsky | Independent

Almudena de la Mata | Blockchain Intelligence

Wladimiro Navarro | Addalia

Antonio López López | SIL0

## PARTICIPATION BODIES

The committees and sectoral committees are where Alastria's activity happens, with members engaging and working to further advance blockchain technology. The committees address the cross-cutting, multi-sectoral impact of blockchain deployment, while the sectoral committees focus on solving challenges and adding value to this technology in a variety of industries with the support of all relevant stakeholders.

At Alastria we work with a decentralised approach and rely on the strength of local **ECOsystems (ECOs)** to foster talent and develop use cases in each territory.

### Technology Strategy Committee

Maps out the technology strategy and makes technical decisions on how to build, accelerate and improve decentralised infrastructures. The core teams of the blockchain networks promoted by our members play a key role, with support from the Alastria Tech team.

LEADERS

### Identity Committee

Designs and develops Alastria's open source digital identity model. Promotes the standardisation and development of use cases using the model across industries.

LEADERS

### Resilience Committee

Implements the necessary policies to ensure the security of the networks promoted by Alastria's members, constituting the third line of defence.
