Liang Chen

Actively seeking SDE Intern for 2024 | MS Computer Software Engineering @NEU | Software Development Engineer with 6 Years in Mobile Tech | Committed Lifelong Learner
Greater Seattle Area

Summary

With 6 years of experience in the financial internet industry, I am a dedicated iOS professional. While my work predominantly involves Objective-C, my heart truly belongs to Swift. Moreover, I am a big fan of Apple.

Driven by my passion for computer science, I pursued a master's degree and have been a self-motivated learner. I have acquired knowledge in various domains, including mobile development, full-stack development, and Machine Learning, earning certificates across several courses. Currently, I am expanding my horizons by delving into full-stack development.

Looking ahead, I aim to embark on the path of full-stack development and eagerly seek a challenging Software Engineer role to leverage my proven expertise and drive innovative solutions.

I am open to connecting and discussing the exciting intersections of technology and innovation. You can reach out to me at liang.chen829@gmail.com. Let's explore this ever-evolving world together.

Experience

Wanxiang Blockchain
Research Development Software Engineer
March 2022 - February 2023 (1 year)
Shanghai, China

- Developed, maintained, and enhanced Hashkey Me Application
- Conducted research on various technical solutions, including SVG display, dynamic Island, state management framework and reducing crash rate

- Refactored the chat feature and network module to enhance the application's scalability and created reusable components to improve development efficiency

Hithink Flush Information Network Co., Ltd.

iOS Software Development Engineer

June 2016 - April 2021 (4 years 11 months)

Hangzhou, Zhejiang, China

- Developed, maintained and continuously improved securities applications to achieve long-term stability and scalability
- Conducted research into a range of technical solutions, encompassing application slimming, startup acceleration, modularization, and more
- Collaborated with fellow members of other software development team to design and implement new features, including a government bond reverse repurchase feature and an open fund feature, among others

Shanghai Wei-Honour Information Technology Co. Ltd.

iOS Developer

October 2015 - June 2016 (9 months)

Shanghai, China

Developed, maintained and improved China Eastern Airlines iPad APP

Education

Northeastern University

Master of Science - MS, Computer Software Engineering · (September 2023 - 2025)

Kunming University of Science and Technology

Bachelor of Engineering - BE, Vehicle Engineering · (September 2009 - July 2013)
