BID LAB - Project Coordinator: Development of Collaborative Economy in cities

marzo de 2017 - octubre de 2021 (4 años 8 meses)

Argentina

Coordination of the following lines of project intervention:

- Participatory analysis of the challenges that cities have to achieve an integral development, and identification of solutions that can be addressed through the implementation of sharing Economy (SE) models.
- Support to entrepreneurs, in particular local, to accelerate SE platforms linked to the challenges of each city. Accompaniment of platform users to ensure adequate education and consumer protection.
- Generation of key information, studies and metrics (quantitative and qualitative) to show the impact of the models on the improvement of life quality in the cities of the region, and management of the generated knowledge.
- Support to municipal governments, public, and private entities in the development of regulatory frameworks and public policies aimed at defining and promoting SE.
- Improve the evidence-base for policies and programs that aim to harness the sharing economy to address pressing developmental challenges in cities from emerging countries. Exchange of experiences among public actors in the Latin American region on the subject.
