(NgRx).

KayTrust
front-end developer
junio de 2019 - septiembre de 2020 (1 año 4 meses)

Peru Hop
Software Developer
septiembre de 2018 - mayo de 2019 (9 meses)

I developed with React a reservation system for transport logistics that is
used today in Peru, Bolivia and Ecuador, which has allowed to improve the
interaction with the end user and improve decision-making with data that were
previously in Excel tables.

Technologies used:
✓Google Cloud Platform (Big Query, Cloud Firestore, Firebase, auth, Cloud
Storage, Cloud functions, Firebase Hosting)
✓ React JS..
✓Sass, Less, Ant design, Responsive Design

CDA Informática
Software Analyst
abril de 2018 - septiembre de 2018 (6 meses)

Client: BBVA bank
✓ I designed and developed a new component and functionality to edit the line
of credit cards, increasing the number of users who apply for new credit cards.
✓ Develop functional and visual improvements of the forms: vehicle loan
quote, and request for debit accounts, always using the Scrum methodology

Technologies used: Oracle sql, Javascript, JQuery, Java and spring (Basic).
