# Mohamed Bahero

I work with The Kenya Red Cross Society as a National Innovation Officer. Expert in #Humanitarian Blockchain and Community-led Innovative Programs. #interoperability #DigitalIDs #Migration.  
Mombasa County, Kenya

## Summary

I am a National Innovation Officer at the International Center for Humanitarian Affairs, a component of the Kenya Red Cross Society that deals with Research, Learning, Policy and Innovation.

I support in co-designing and piloting the below solutions :-

1. Community Inclusion currencies - Block chain based tokens ploughed in the community with an integration of Cash assistance to increase community economic and livelihood resilience- . The project is funded by the Danish Red Cross.
2. Dignified Identity project implemented in refugee settings to provide a dignified solution to Persons of Concerns in form of digital wallets for identity purposes, in the context of humanitarian assistance. The program is supported by the IFRC.
3. Discovery Space Program by the Airbus Foundation. Through the project , we implemented an in-school program, focused to empower students on Critical thinking, Creative thinking and prototyping skills through 3D designing and modelling.
4. A youth and women empowerment project funded by the French Embassy in Kenya. The project is focusing on capacity building on Professional skills, Vocational skills, Digital skills and Innovative skills to the youth and women through an engagement of different project partners, to enhance employability for the youth and women of Mombasa County.
5. Partly supporting an Urban Resilience project funded by the Danish Red Cross. As an Innovation unit, our main task is to empower the community on Innovation approaches to identify community challenges and crafting sustainable solutions, through facilitating workshops such as Human-centered design, system design thinking and design thinking.

Through these programs, I continue to enrich my skills on community engagement and accountability, report writing, facilitation, project management, team dynamics, conceptual thinking, prototyping and partners' management.

As a humanitarian, I thrive to make the community a resilient space.

Additionally I am a youth community leader in the Mombasa Youth Assembly serving as the cabinet secretary of Security Affairs. Through this post we are tasked to work with the National and County Government departments and different Security stakeholders, to enhance security and mutual coexistence in the community.

I was also awarded as The Best County Youth Leader 2022 in Mombasa County by the Vijana Youth Network.

---

## Experience
