Senior Software Engineer & Tech Lead

Saad is a great engineer, working with him is a smooth sailing experience, very competent, and a pleasure to work with.

He's absolutely automatic, efficient, careful, and always keeping his work to a high standard. From the time he gets on tasks to deliver results, easy or hard he handles them professionally with quality and clear progress like providing detailed research, solutions then evaluating pros, cons, and tradeoffs... any step big or small is recorded in an easy way to understand.
