Sanjay S

Senior Software Engineer @ vlinder.io | React JS | JavaScript | TypeScript | UI/UX Designer
Bengaluru, Karnataka, India

Summary

I am a highly motivated and experienced software engineer with a strong background in React JS, HTML, CSS, JavaScript ,TypeScript and UX design. I have a passion for developing innovative and user-centered solutions, and I am dedicated to staying up-to-date with the latest technologies and industry trends.

Experience:

I have 3.8 years of experience in software development, with a focus on building and maintaining web applications using React JS and other front-end technologies. My experience includes a wide range of projects, from small single-page applications to large-scale enterprise systems. I have a strong understanding of web development best practices, including accessibility, performance optimization, and responsive design.

In addition to my technical skills, I have experience in user experience design and user research with Adobe Photoshop and Figma. I understand the importance of creating a seamless user experience and I have experience in creating wireframes, user flows, and user interface mockups.

Skills:

- Strong proficiency in React JS, HTML, CSS , JavaScript and TypeScript
- Experience in user experience design, user research, and UI/UX design with. Adobe Photoshop and Figma
- Familiarity with Agile development methodologies
- Experience with Git
- Strong problem-solving and analytical skills
- Strong communication and collaboration skills

I am always eager to learn new technologies and I am passionate about staying up-to-date with the latest trends in the software development industry. I am a team player and I enjoy working collaboratively with cross-functional teams to deliver high-quality products. I am looking forward to new opportunities to grow and contribute to the development of innovative projects.
